DX News

J51A Guinea Bissau -now QRT

In just under 20 days of operation we have logged 255,640 QSOs and 49,700 different callsigns. We want to say THANK YOU to everybody who helped making our trip such a great experience. First of all, the team around Jean and his wife Isabel from Bij Club – our location on Bubaque Island, Bijagos Archipelago, Guinea-Bissau. They perfectly understood our needs and were always willing to help and support us. The pile-ups were still going strong on the last day, so you may consider coming to this wonderful place for another DXpedition or maybe a Contest participation? On their [website](#) you'll find all the details and a lot of nice pictures around other activities like ornithology or fishing.

TX5EU Austral Islands -update March 18 by Ronald PA3EWP

We would like to let you know that (as at 20:00z today) everything is up and running. Everyone is in good shape and happy with the results so far.

Most of the time we have 3 stations running with 2 operators present. One of the stations will almost always be on FT8. The condx are improving each day and we had several long runs with EU. Especially this evening (EU time) we were able to log lots of European stations on 15m/12m/10m. Just after our sunrise the bands open to EU.

The 80m antenna is performing well. We had some good QSO's with EU and surprised about the signal strength. Last night we converted the 80m vertical to 60m. Many FT8 QSO's were logged with EU. In the coming night will be on 80m again. Remember, we will look for EU just after our sunrise. We hope you will make it in the log. Good luck all and greetings from the team.

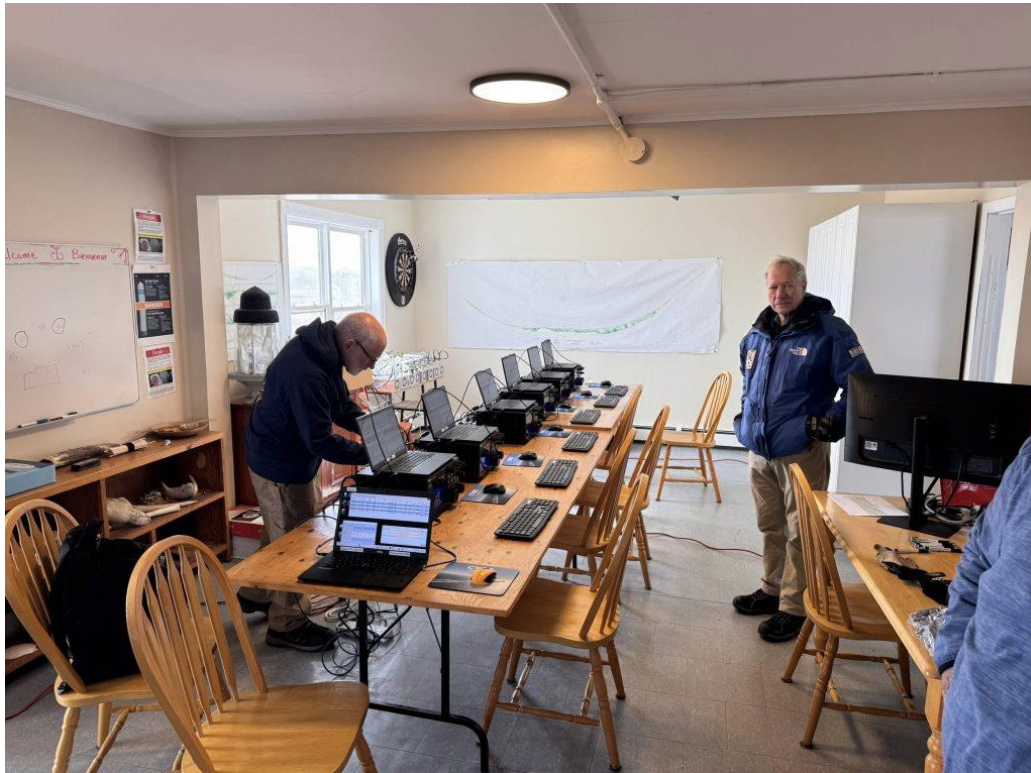

S21WD Bangladesh DXpedition -update March 18

With all luggage accounted for and checked in, the **S21WD** team departed Munich at 1125 local time heading to Istanbul first of all. This will be 1 of 2 flights today for the group with the next flight from IST to Dhaka. Picture of the guys prior to boarding.

CY0S Sable Island -update March 18

As of 17:00z today, all **CY0S** team members had flown from Halifax to Sable Island. Glenn, **W0GJ** reports the A3 Tri-bander is up, as well as the setup for 6 new FLEX AURORA transceivers.

8Q7ZW Maldives -now QRT

We quickly booked flights via Abu Dhabi as Dubai airport was closed after the attacks. That's why we spent the last night mostly on 160m as we had a lot of requests for this band. In the morning we packed all the antennas and around 3 p.m we took a speedboat to the airport. There we said goodbye to Parker 8Q7PR (many thanks for providing the licence and island support), to whom we left a Spiderbeam antenna and Low band vertical 23m so that he could activate the lower bands as much as possible. He promised that he would be active on 160/80m in the near future.

The evening flight to A6 was calm, but all flights to Dubai were cancelled. We were lucky. We landed at Vienna airport at 16.3.26 @7.30am in the morning.

We thank everyone once again for your support.

XX9W Macao -update March 17

The **XX9W** team are checking-in at Madrid Airport. They will fly via Istanbul to Hong Kong finally arriving Macao. Pictures by [Land of QSL](#) helper, Jose EA5BCQ.

3D2JK Lakeba Island OC-095 -update by Jacek SP5APW

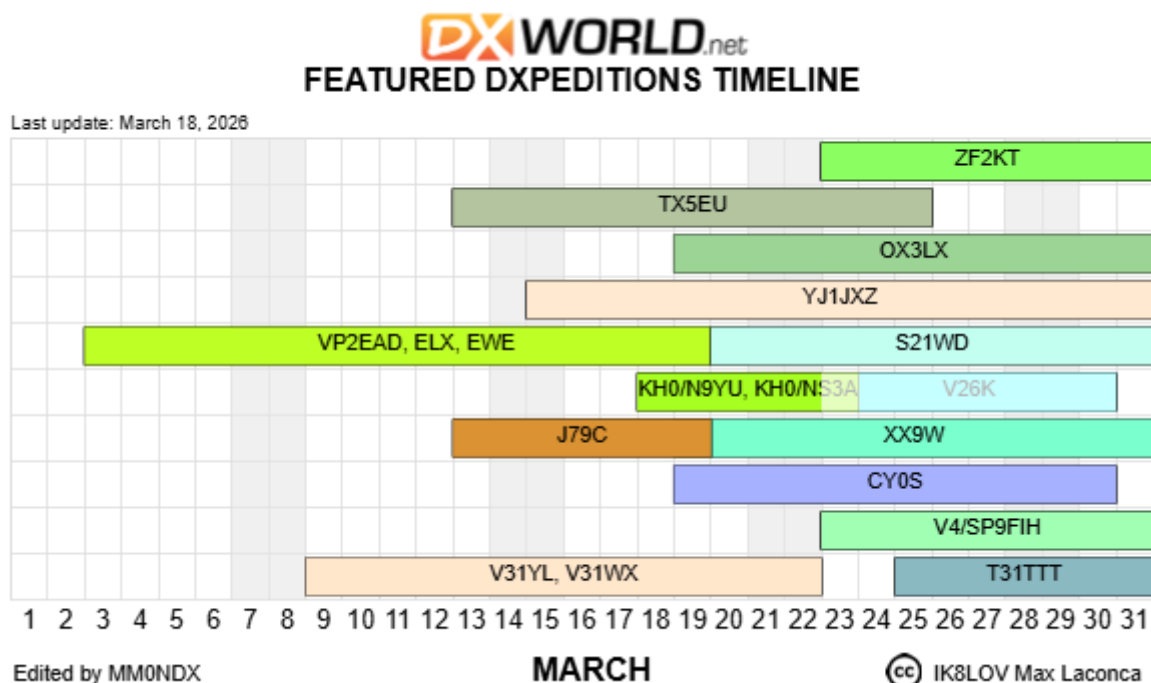

I have applied for the missing Fijian import permit for the MLA 300 amplifier, and I hope to receive it this week. So, there shouldn't be any problems getting the amplifier. Unfortunately, the amplifier isn't performing as expected. I have run tests with a dummy load and can now report that 300 W is not achievable on frequencies 14-28 MHz. I've managed to achieve a maximum of 200-220 W on these bands. While the amplifier probably won't help as much on SSB as I'd like, it can also be used on FT8, which will likely improve my signal in that mode.

I would like to thank Antoine 3D2AG for his kind assistance in contacting TAF. Without this assistance, the permit might not have been issued in time.

T31TTT Kanton Island -update by the Rebels

Rebels report that preparations for their upcoming T31TTT activity are done. Their own ship is loaded with supplies, fuel, generators and they'll leaving Fiji tomorrow morning local time to Samoa. Joining them will be 7 Kiribati govt. officials – info on that below. More info soon.
